GroundSpeed Limited Materials & Workmanship Warranty

This limited warranty applies only to the original purchaser of select GroundSpeed tires. Only tires installed on the original vehicle which have been installed according to the manufacturer's recommendations are eligible.

The limited warranty applies to tires purchased after January 1, 2018. This limited warranty covers defects in materials and workmanship only.

A. Warranty Length

A tire will be required to have at least 2/32" of tread depth to qualify for the warranty. Any tire with less than 2/32" tread depth is considered past the usable tread life and not under warranty.

B. Materials and Workmanship Warranty

Select GroundSpeed tires are covered against defects in materials and workmanship and will be replaced free of charge within the first 2/32" of tread wear, or within 6 months from the date of purchase, whichever comes first. After the 100% replacement term expires and while the tire is within 60 months from the manufacturing date, credit will be determined by the percentage of original tread depth remaining on the tire. Any additional costs of mounting, balancing, installation charges, and any applicable sales tax or use taxes are not covered.

C. Tire Maintenance Guidelines

- To reduce the risk of tire failure we recommend the following:
- Maintain proper inflation pressure based on vehicle manufacturers recommendation.
- Do not drive if tires are under-/over-inflated. Pressure should be set at the level recommended by the vehicle manufacturer.
- Wheel alignment and balancing should be maintained based on vehicle manufacturer recommendations.
- Do not overload. The maximum load carrying capacity is molded on the tire sidewall.
- Avoid potholes and driving over curbs, obstacles, and pavement edges.
- Avoid excessive spinning of tires.
- Tires should be replaced when only 2/32" tire tread depth remain.
- Check tires frequently for scrapes, cuts, foreign objects, separations, or bulges. If damage is found, change tire immediately with a spare and have the damaged tire examined by a GroundSpeed tire dealer professional.
- Maintain proper speed limits allowed by law or the appropriate speed justified by driving conditions.
- Rotate tires to achieve maximum longevity.

Limited Materials & Workmanship Warranty

To be completed at time of purchase
